                    Re: **Ethypharm v. Bentley, 04-1300 (SLR)**

Dear Craig:

        The attached letter dated Friday, September 15, 2006, was sent to our
law firm marked for Saturday delivery. As you intended, this letter was
delivered to us on Saturday, September 16, 2006 and was received today –
the first business day after the due date for Ethypharm's Opposition to
Bentley's Motion for Summary Judgment on the issue of agency. To our
great surprise, your letter enclosed additional relevant documents responsive
to Phase 1 discovery on the issues of agency and joint tortfeasor status. As
you know, Bentley was required to produce these documents many months
ago. In addition, you chose not to provide us with notice of the existence of
these documents before Ethypharm filed its Opposition to Summary
Judgment despite the fact that the attorneys with our respective law firms
were in contact a number of times last week, including discussions that took
place on Friday.

        Bentley's production of agency related documents after the filing of
Ethypharm's Opposition to Summary Judgment is unconscionable. This is
especially true in light of the prejudice that Ethypharm has already suffered
given Bentley's production of other highly relevant documents relating to
agency after the close of Phase 1 discovery and in light of what we consider
to be false statements and omissions of material fact that have been
previously filed with the Court as part of sworn declarations of Bentley
officials. In light of the seriousness of this matter, I ask that you immediately
provide an explanation for the timing of this production and I alert you to the
fact that we are actively considering the most appropriate manner in which to
inform the Court of this matter.

                                        Sincerely,

                                        Dwight P. Bostwick
